**SCOTT EDINGER**  
Chief of Police

---For Immediate Release---

Reference JPD CFS:17-23199

On October 6, 2017 at approximately 1146 hours Stutsman County Dispatch received a report of an injury crash that occurred behind a residence at 913 18<sup>th</sup> St SE. Jamestown Police Department Sergeant Sid Mann and Jamestown Area Ambulance responded to the scene of what was described as a cement truck that rolled down the hill and into the river.

Aggregate Industries was delivering concrete to a construction project behind the residence at 913 18<sup>th</sup> St SE. The 22 year old male driver was backing an Aggregate Industries cement truck up to unload approximately 7 yards of concrete when the driver's side rear tires sunk into the bank and then the bank gave way causing the truck to roll down the embankment and into the river.

Sergeant Mann, 2 Jamestown Ambulance personnel, and 2 crew members working for Anderco Landscaping Inc were able to bring the 22 year old up the river bank to safety where he was treated and transported to JRMC. He was later taken by Sanford Air Ambulance and transferred to Fargo for surgery to repair injuries to one of his legs.

Jamestown Fire Department's Quick Response Team was dispatched to the scene for assistance with the rescue and to coordinate any hazardous material response with Stutsman County Emergency Management and NDDDES. The 7 member unit was on scene for approximately 1 hour and 5 minutes.

Crossroads Interstate Towing and Dan Poland Machine Inc responded to coordinate the removal of the cement truck from the river. The removal is ongoing as of the media release and is expected to be completed on 10/07/2017.
